When a man owns a blooded horse he is always careful of his health. He looks after his diet and is particular that the feeding shall be regular and right. While he is doing this it is likely that he is himself suffering from some disease or disorder. When the trouble goes so bad that he cannot work he will begin to realize himself the care he has taken of his horse at the time. Good, pure, rich, red blood is the best insurance of any kind. Almost all diseases come from impure or deficient blood. Keep the blood pure and strong and disease can find no foothold. That is the principle upon which Dr. Pierce's Great Discoverer works. It cleanses, purifies and enriches the blood, purges and keeps the whole body in perfect order, makes appetite good, digestion strong, assimilation perfect. It brings ruddy, virile health. It builds up and sustains strength from when from any cause weakened. Now the family standard.

THE BENSON FLOOD.

Many Families Made Pitifully Inconvenienced by Them. Last Evening They Had in the World.

FRANKFORT, Ky., July 24.—As the late developments come out it is learned that many families, not all in the Benson neighborhood, but all over the county, have been made pitifully destitute. Men from the Cedar run neighborhood here in town, begging quarters and dimes with which to buy clothing and food for the destitute of that section. Such general deprivation from the upper Benson neighborhood is reported that there is talk of a mass meeting here to devise organized methods for caring for the destitute. Just beyond the Casey bridge stood an iron trestle, which was entirely swept away, abutments and all, leaving a hole a foot deep and 40 feet broad. Nearly 300 feet of railroad track was lying in the Louis Webb garden. About an eighth of a mile further a piece of track nearly half a mile long is completely swept away, as is the fill on which it stood. The water was Thursday still pouring over the wreck of the fill.
